

# New revision of ProSoft-ProSoft 4.0

The Softstarter selection program, ProSoft, has been updated and the new version is called ProSoft 4

Id.No. 1SFC132018K0201  
Date october 2009

## New revision of ProSoft – ProSoft 4.0

The biggest news are explained below:

- Imperial / Nema mode – It is now possible to select Imperial mode where the selection is done according to the UL-standard. All the required data can be inserted in imperial units such as hp, feet, °F etc and the selection of the softstarter is done according to the UL-standard. Nema-classed motors has also been added in this version.
  - Polish language has been implemented in ProSoft.
- The new revision can be downloaded from ABB Library. To select Imperial/Nema mode, while in Prosoft, just enter File-change Metrics and select Imperial.

## Give-aways

There has been a big demand for the PSR mini USB-mouse and for a while there were no stock of these. However, we now have 1500 of these units on stock and they are available for you to order.

The PSR deck of playing cards are also available to order and can work good as a give-away on fairs, road shows, trainings or similar events. Finally, the Mint tablets from the launch of PSR105A, are also available

Give-aways	Order code
Mint tablets	1SFC132008E0201
PSR mini mouse	1SFC132006E0201
Deck of cards	1SFC132009E0201
