Date: January 25, 2007

**Phasing out  
small PSS**

### Phasing out the old compact range of softstarters PSS03 to PSS25

We have now produced the final batch of the small range of softstarters PSS 03, PSS12 and PSS25 and it is now time to phase out this product from our ABB total softstarter range.

We still have some limited number of these old softstarters on stock and below you will find the available quantities **2007-01-25**.

PSS03, PSS12 and PSS25

Type	Order code	Qty in stock	Date 2007-01-25
PSS03-220B	1SFA891001R2209	112	
PSS03-400B	1SFA891001R4009	12	
PSS03-480B	1SFA891001R4809	93	
PSS12-220B	1SFA891002R2209	0	
PSS12-400B	1SFA891002R4009	153	
PSS12-480B	1SFA891002R4809	13	
PSS12-600B	1SFA891002R6009	27	
PSS25-220B	1SFA891003R2209	5	
PSS25-400B	1SFA891003R4009	8	
PSS25-480B	1SFA891003R4809	23	
PSS25-600B	1SFA891003R6009	22	

You can still order, but the quantities above may change very fast. So please double check the availability before placing the order.

#### New compact range of softstarters - type PSR.

The new PSR range is replacing the older PSS range above. This new range offers a wide current range from 3 to 45 ampere. It can be used in all main voltages between 208 V to 600 V for both 50 and 60 Hz. And the available supply and control voltage ranges are 24 V DC or 100 – 240 V AC.

**You will find more data about the PSR range in the new softstarter catalogue 1SFC132004C0201**

All types from PSR3 to PSR37 are available from stock today. PSR 45 will be fully available from stock again in the beginning of March.
