## LOW VOLTAGE PRODUCTS

Ref. to: 1SFC132006B0201 (Supersedes 1SFC132002B0201 of April 2006)

Ident. No.: 1SFC132011K0201  
Date: April 12, 2007

**New**

## Introducing a New Panorama for Softstarters

**The new panorama gives you and our customers a perfect overview of our wide range of Softstarters.**

The complete range is shown at one spread starting with the compact PSR, continues with the flexible PSS and ends with our advanced PST(B). All types, sizes and functions in one page.

The panorama also includes short information about:

- Quick guide for selection of Softstarter
- Difference between different starting methods
- New functions such as Torque Control and analog output

Available for ordering now.  
Panorama – Softstarters The complete Range.
