

Case Study; Automobile Parts

“The customer must be able to depend on manufacturers who work worldwide and who make spare parts available within a reasonable response time.”

Markus selzle, Kirchhoff Automotive

Client

- Kirchhoff Automotive, Poland

Application

- Arc welding
- Spot welding
- Material handling

System installed by ABB Poland

Key Drivers & Benefits

- ✓ The compact welding cells provide flexibility in layout changes as well as quick restarts at the setup location and close-to-serial production prior to moving the system
- ✓ Availability and global service
