

Case Study; Steel Trolleys

“In a very short time, after a few small adjustments, we’re ready to begin producing an entirely different item.”

Pedro Sousa Pires, Faramé’s general manager

Client

- Faramé, Portugal

Application

- Arc welding
- Cutting
- Bending
- Spot welding

System installed by ABB Portugal

Key Drivers & Benefits

- ✓ All programming and operating staff can use all the welding stations
- ✓ Each robot can be quickly adapted to a new or different product
- ✓ More available time and manpower for developing new products
