Dear Customer,

with reference to the EU Directive 2002/95/EC on Restriction of Hazardous Substances (RoHS), the position of ABB Oy Motors is hereafter stated:

Notwithstanding that the RoHS Directive does not apply to Low Voltage motors (as they are not falling in any of the categories listed in Appendix 1A of the WEEE Directive 2002/96/EC (consumer products)), ABB Oy Motors is committed to make its products RoHS-compliant, in harmony with ABB Group's sustainability policy and to meet the needs of its customers, since these products may become parts of an equipment within the scope of the Directive.

Products and processes are analyzed to identify the uses of the substances subject to restriction according to the RoHS directive. Specific projects are running, aimed to find, test and validate alternative RoHS-compliant solutions.

Therefore, ABB Oy Motors' products will be RoHS-compliant by the date the Directive is effective (July 1st 2006).
